

NTK-98 微電腦切帶機 (桌上經濟型)

MICRO COMPUTER BELT CUTTING M/C (Economic Desk-top type)

特點：本機採用微電腦數控裝置，設定切帶長度、精度準確、操作簡單、耗損少。

用途：本機適用於少量生產之雙面膠帶、粘扣帶等之定寸裁切使用。

FEATURES:

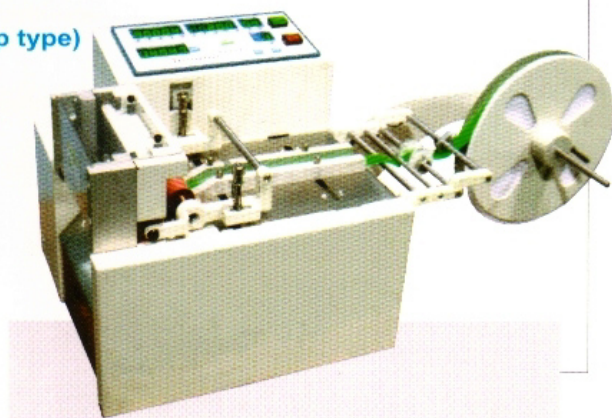

The m/c is adopted micro-computer numerical controlling device to set the belt cutting length, precision, simple of operating & low waste rate.

APPLICATIONS:

Suitable for small quantity cutting on two-sided tape and Velcro to a setting length.

規格 SPECIFICATIONS:

裁切寬度 Cutting width / 1~98mm | 裁切長度 Cutting length / 1~9999.9mm

NTK-100 微電腦切帶機 (桌上型)

MICRO COMPUTER BELT CUTTING M/C (Desk Type)

特點：本機採用微電腦數控裝置，設定切帶長度、精度準確、操作簡單、耗損少。

用途：本機適用於熱收縮套管、排線、PVC 套管、絕緣紙、雙面膠帶、粘扣帶，棉紗帶、拉鍊等之定寸裁切使用。

FEATURES:

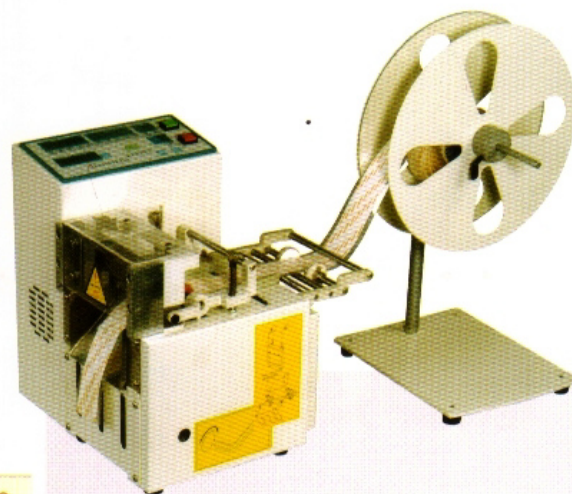

The m/c is adopted micro-computer numerical controlling device to set the belt cutting length, precision, simple of operating & low waste rate.

APPLICATIONS:

The m/c is suitable for heat shrinkage socket, cable wire, PVC socket, insulating paper, twin surface tape, bonding. tape, cotton belt & zipper etc., for sizing cutting use.

規格 SPECIFICATIONS:

裁切寬度 Cutting width / 1~100mm | 裁切長度 Cutting length / 1~9999.9mm

NTK-100A 微電腦切帶機 (熱切桌上型)

MICRO COMPUTER BELT CUTTING M/C (Thermo-cutting Desk Type)

特點：本機採用微電腦數控裝置，設定切帶長度，切刀附加熱裝置，可將織帶切口加熱固結，不產生毛邊，省時、省力、耗損少。

用途：本機適用於彩色帶、尼龍帶、編織帶等之定寸裁切使用。

FEATURES:

The m/c is adopted micro-computer numerical controlling device to set the belt cutting length, especially, the cutting knife is equipped with heating device which can be heated & bonded the cutting mouth of braided belt. no burr, time & labour saving, low waste rate.

APPLICATIONS:

The m/c is suitable for colorful belt, nylon belt, braided belt etc., for sizing cutting use.

規格 SPECIFICATIONS:

裁切寬度 Cutting width / 1~100mm | 裁切長度 Cutting length / 1~9999.9mm

TK-100S 微電腦切帶機 (智慧型)

MICRO COMPUTER BELT CUTTING M/C (INTELLIGENT TYPE)

特點：本機採用微電腦數控裝置，控制伺服馬達，無論是變換長度或角度，均可速在按鍵上操作，長度、角度設定精確，操作簡單、裁切速度快、損耗少。

用途：本機適於粘扣帶、PP帶、尼龍帶、安全帶...等之定寸或定角度裁切使用。

FEATURES:

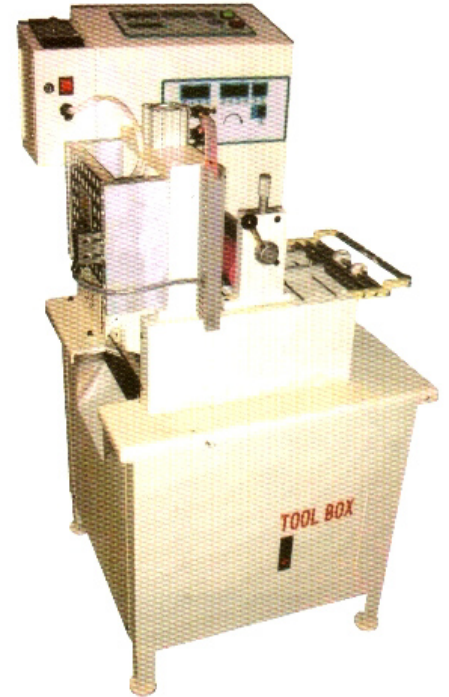

The m/c is adopted micro-computerized numerical controlling device to control the servo motor, which just push on the button on the control panel for changing length or angle, Length and angle setting precisely, simple of operating, quick of cutting speed & low wastage rate.

APPLICATIONS:

The rde is suitable for bonding tape, PP tape, nylon belt, safety locking belt etc., for making length sizing or fixed angle cutting use.

規格 SPECIFICATIONS:

裁切寬度 Cutting width / □ 1~100mm ◇ 1~65mm	裁切長度 Cutting length / 1~9999.9mm
--	----------------------------------

TK-L01 超音波熔接裁切專用機

ULTRASONIC MELTING CUTOFF (SPECIAL PURPOSE MACHINE)

特點：本機係結合超音波熔接切斷和微電腦定寸送料之熱切型裁切專用機。

用途：本機適用於需熔接裁切之安全帶、織帶及布類等裁切材料。※可做異型裁切

FEATURES:

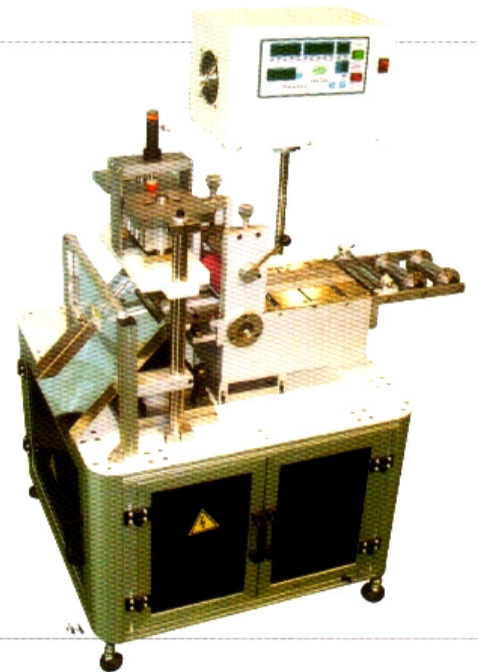

This machine incorporated with ultrasonic melting cutoff and micro-computer feeding is a hot cut type, special purpose machine.

APPLICATIONS:

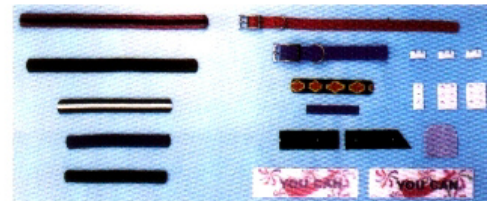

This machine is used for cutting the materials, such as safety belt, fabric belt and cloth, which require hot melting cut. It can also cut a shape of irregular line.

規格 SPECIFICATIONS:

裁切寬度 Cutting width / 60mm	裁切長度 Cutting length / 1~9999.9mm
---------------------------	----------------------------------
